

Thank you for agreeing to take part in the next stage of the Twenty 07 study.

One of our nurses will have contacted you to arrange a second visit where she will ask about your health and take some simple physical measurements.

This booklet contains some sets of questions about your feelings and opinions. It would help us greatly if you could fill in the questions in this booklet before the nurse visits you and have it ready for her to collect.

There are instructions inside about how to fill in the different parts of the booklet. If you are not sure how do to any of it, wait until the nurse visits and she will help you.

Remember, it is your opinions and feelings we are interested in. The rest of your family will probably want to see what you have been asked, but try to answer the questions without being influenced by what other people think.

PART 1

On the next page you will find a number of words or phrases which might describe someone's personality.

We would like you to tell us how well each of the words describes you

Use the seven point scale at the top to show us how well each word describes you.

For example. If the word was 'friendly'

write 1 in the box opposite friendly if it is never or almost never true that you are friendly

write 2 in the box if it is usually not true that you are friendly

write 3 in the box if it is sometimes but infrequently true that you are friendly

write 4 in the box if it is occasionally true that you are friendly

write 5 in the box if it is often true that you are friendly

write 6 in the box if it is usually true that you are friendly

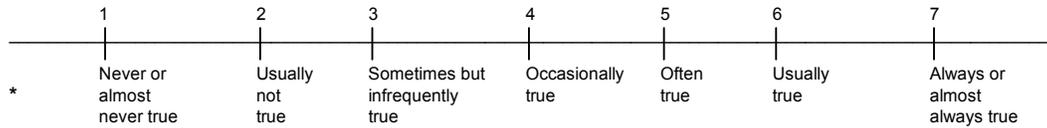

write 7 in the box if it is always or almost always true that you are friendly

If you had filled in part of the measure like this. . .

friendly	6
irresponsible	2
moody	5
carefree	4

It would mean that it is usually true that you are friendly, usually not true that you are irresponsible, often true that you are moody and occasionally true that you are carefree.

PART 2

On the next three pages there are a set of statements which people have made about their health.

Each statement has a scale underneath it which shows how strongly you agree or disagree with it.

1, 2 or 3 mean you agree with the statement.

1 means you agree strongly.

2 means you agree quite a bit, but not strongly.

3 means you agree, but only a little.

4, 5 or 6 mean you disagree with the statement.

4 means you disagree a little.

5 means you disagree quite a bit.

6 means you disagree strongly

for example, one of the statements might be. . .

In this case the person filling in the question agreed with the statement, but only a little, so he put a circle round the number 3 to show that he agreed a little with the statement.

If he or she had strongly disagreed they would have put a circle round the number 6, and so on.

Could you please go through the remaining statements putting a circle round the number which shows how strongly you agree or disagree with each

PLEASE PUT A CIRCLE ON THE SCALE FOR EVERY STATEMENT, DO NOT MISS ANY OUT. IF YOU CAN'T MAKE UP YOUR MIND PICK THE ONE WHICH SEEMS CLOSEST TO HOW YOU FEEL
